BRAKEMAN BUTTED FROM A CAR.

Goat of a Theatrical Company Causes the Death of Railroad Employee.

By Telegraph to The Freeman.

LARAMEE CITY, W. T., Jan. 7.—The Overland fast freight train on the Union Pacific Road yesterday brought in the mangled body of James Sumner, a brakeman, who had been thrown from the top of the train by a goat while the train was going at high speed. The animal belonged to a theatrical company and got on the train at Cheyenne. It is supposed, from a low shed adjoining the track, from a low shed adjoining the track, from a low shed adjoining the track.

After the train left Cheyenne the goat chewed the bell cord awhile and then drove two of the brakemen to the caboose, where they remained in terror, believing the animal was a wild cat. Sumner was on the front of the train, and did not see the goat until the latter rushed at him full tilt in the darkness. He staggered, lost his balance, and fell from the train. The train was stopped as soon as possible, and Sumner's body was found lying beside the track. His neck had been broken. A cow-boy lassoed the goat when the train arrived here.

Partridges Know a Thing or Two.

Charles More, of Rondout, an Ulster & Delaware Railroad conductor, says that the hardest thing to catch alive is a young partridge. One day while out driving he discovered in an open field an old partridge sitting over its brood of young. More thought there was a good chance to catch the little ones, as the space was open, and there was no brush near. He entered the field, and the old partridge flew away. The young ones disappeared like magic. Not a feather of them could be seen, although More says he hunted for them high and low. He returned to his vehicle and the old partridge and young assembled together in the same place they had left a few minutes before.

Vital Statistics.

[From the Albany Argus.]

The vital statistics for 1888, according to Secretary Long, of the Local Board of Health, show: Births, 1,651; marriages, 514, and deaths, 2,332. The mortality was greatest in March, when the number of deaths was 236, and the lowest, in September, when the number was 168. August produced the most births, 170, and May the least, 112. June was the favored month for marriages, 64 being recorded, while in March but 26 couples were wedded.

In Reference to Collecting Damages.

[From the Germania Herald.]

People expecting to gain damages from the different villages in the country this winter, by falling down and injuring themselves and then suing the village, should remember that they must notify the authorities 24 hours before they fall—at least the law now reads that no damages can be collected for injuries of the kind, unless complaint has been made against the condition of the walk at least 24 hours before the accident occurs.

The Miserable Mail Service.

[From the New York Herald.]

The mail service on the Walkill Valley Railroad has shown great demoralization, of late, for which Cleveland's administration is responsible in having demanded the resignation of so efficient a Superintendent as Mr. Jackson and appointing an inefficient successor, who it is said pays little if any attention to complaints made to him. He should have seen to it that some good man took the place.

[From the Saugerties Post.]

James Stickle, first pilot of the steamer Ansonia, is one of the best known pilots on the Hudson River. For 40 years he has been a pilot on the Saugerties-New-York night line, and in all that time has never met with an accident, whereby any person was injured or killed, or damage of any consequence resulted to his vessel. Mr. Stickle is good yet for many years' service.

Butchers, Sheep Raisers and Farmers.

[From the Downsville News.]

The poor farmer can get but 4 cents per pound for a good fat sheep, and 5 cents for the best spring lamb. And yet our butchers want 15 cents for steak, and for mutton 10 and 12 cents per pound. We will venture to say that if a good beef, which would dress 600 pounds, could be bought for \$10, we would be compelled to pay 15 cents for steak, a good per cent. of which would be cut out of the backbone at that.

The "Devil's Kindling Wood."

[From the Monticello Watchman.]

A party of three or four young men who got drunk on cider in a little grocery at Spring Brook, a few nights ago, quarreled and fought and even drew pistols and threatened to shoot each other.
